

Chadwick Nott

Considered a career in recruitment? Why you should consider joining us.

BEST OF BOTH WORLDS

We are the UK's No.1 boutique legal recruitment agency with teams based across the country. We are small enough for you to feel you could make a real difference in this fun but professional and very collegiate business, but we are ultimately owned by Impellam Plc so in turn, we have great support in terms of infrastructure, IT and training.

LONGEVITY

Established in 1992 means we have countless long standing client relationships which we continue to nurture with established consultants who have been with us for over 10 years, alongside our new team members who are introduced, supported and given the warmest of platforms to succeed from.

REWARDS FOR EVERYONE

Uncapped commission and a wide reaching rewards culture means that great bonuses are not only paid to the top billers – everyone shares in our varied and different rewards. We focus on the basics and reward the small things. Ultimately we're one team and celebrate success.

FLEXIBLE

Flexible and part-time working options are available and readily used by many of the teams.

FAIR

We're fair and totally transparent with our commission structure so there are none of the hidden surprises that arise from discretionary commission or standing requirement systems.

GOOD PEOPLE

You'll work alongside bright individuals who pride themselves in being consultative legal sector experts, working with integrity. Everyone is treated like adults – micro management and rigid KPIs are not what we are about.

INTERNATIONAL

In a fast-paced market, we're rapidly expanding to cover international work across Europe, Australia, New Zealand, Asia, the Middle East and offshore. The world can be your oyster here.
